## **DETAILED ACTION**

Page 2

## **REASONS FOR ALLOWANCE**

1. Claims 1 & 5-17 are allowable over the prior art.

2. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, Moll et al 6,265,725 B1 disclose a range monitoring device comprising a pulse transmitter (3), diverting unit (10), exit window (13) and detector (5). However, Moll et al does not disclose the use of a means for coupling out a portion of the light quantity to form a reference pulse that would allow the determination of the distance on a basis of transit time differences. Wetteborn 6,088,085 disclose a range measurement apparatus comprising of light emitter (1) and light detector (2), but does not disclose a diverting unit that periodically guides the transmission light pulses. Pierenkemper 6,509,958 B2 discloses a distance measuring device comprising transmitter (4), reference detector (11), detector (6), and rotational polygonal mirror (27). However, Pierenkemper does not disclose the polygonal mirror (27) to periodically guide the light pulses. It would not have been obvious to combine the teachings above, so as a result, independent claim 1 and dependent claims 5-7 & 14-17 are allowable over the prior art.

With respect to claim 8, the prior art of record does not disclose the determination of the transit time difference by quantizing the amplitudes of an analog reflection signal. As a result, independent claim 8 and dependent claims 9-13 are allowable over the prior art.

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to

applicant's disclosure.

Bolkow et al 4,699,508 disclose a distance-measuring device.
